

Our Commitment to Cleanliness

Cleaning Summary

Keeping the General Practice facilities clean and preventing the spread of infection is everybody's responsibility from the Practice Manager to the healthcare cleaner. It is important for patients, visitors, the public and staff.

Cleanliness matters, and to ensure consistency throughout the NHS, and to support hospitals and healthcare services, this commitment has been adopted in every organization, including this Practice.

This Charter sets out our commitment to ensure a consistently high standard of cleanliness is delivered across our facilities. It also sets out how we would like you to help us maintain high standards.

WE WILL:

- Treat patients in a clean, safe and pleasant environment
- Provide a well maintained, clean and safe environment, using the most appropriate and up to date cleaning methods and frequencies
- Aim to clean the building when patient appointments have finished for the day
- Maintain fixtures and fittings to an acceptable condition to enable effective and safe cleaning to take place regularly
- Allocate specific roles and responsibilities for cleaning, linked to infection prevention and control
- Constantly review cleanliness and rectify issues with cleaning provider or team
- Take account of your views about the quality and standards of cleanliness by involving patients and visitors in reporting and monitoring how well we are doing
- Provide the public with clear information on any measures which they can take, to raise awareness and educate the public in the prevention and control of healthcare associated infections
- Provide structured and pro-active education and training to ensure all our staff are competent in delivering infection prevention and control practices within the remit of their role
- Provide entrance matting to remove soil from shoes and reduce the dirt from entering the building especially in winter months
- Design any new facilities with ease of cleaning in mind

WE ASK PATIENTS, VISITORS AND THE PUBLIC TO:

- Follow good hygiene practices which are displayed in and around the Practice
- Tell us if you require any further information about cleanliness or prevention of infection
- Work with us to monitor and improve standards of cleanliness and prevention of infection
- Do not smoke or drop debris around the entrance doors to reduce likelihood of soil entering the building
- Inform us if you or a member of your family spill drinks or where vomiting occurs to enable us to contain the spill and rectify the situation as promptly as possible for the comfort of the patient, visitors and staff
- Inform us if you see any breaches in the standards of hygiene
